A tasteful guide for California wine novices and connoisseurs alike California accounts for over 90 percent of the total U.S. wine production-about two of every three bottles sold. California Wine For Dummies presents the latest information on California wines and the regions where they are produced, such as Sonoma, Napa, and Monterey. The book gives readers the knowledge they need to appreciate California wines, select a good bottle at a store or restaurant, find bargains, and pair wines with food. It also explains why some regions are renowned for wines made from specific grape varieties, and offers tips on how to get the most out of winery visits. Ed McCarthy, CWE (Baldwin, NY), is a regular contributor to Wine Enthusiast and The Wine Journal. Mary Ewing-Mulligan, MW (Baldwin, NY), is President of the International Wine Center in New York. Together, they are the authors of many For Dummies wine guides, including the perennial bestseller Wine For Dummies (978-0-470-04579-4), now in its fourth edition.
